1. The Konstruktionsburo Rossau at the Sachsenberg Works, Dessau-Rossau (E-18), which employs 700 men, is working on an E-boat of a new type. Three of these E-boats are under construction. One of them was scheduled for completion 15 August 1947; the other two are to be completed at Odessa, where 200 such boats are to be constructed with equipment taken from the Sachsenberg Works.
2. Details of these boats are as follows:
  - a. Engines: Two Maybach diesel engines of 3,000 h.p. each.
  - b. Speed: Approximately 50 sea-miles p.h.
  - c. Material: Duraluminum
  - d. Armament: No fittings for guns or torpedos observed
3. Dimensions in feet are shown on the attached sketch. There is no gliding bottom construction, but two sort of paravanes are attached to the keel.
